

ST 400

ST 400 FOUR FUNCTION EMERGENCY STRETCHER

- SUITABLE FOR
CONSTRUCTION
COATING
FUNCTION &
POWER

Intensive Care Units, Clinics, Emergency units, Academic studies.
Made of steel construction. Gas metal arc welding technique provides strength and durability.
All metal constructions are painted with the high quality epoxy powder paint at 180°C.
ST 400, backrest movement is made by 500 N/m³ pneumatic gas spring. Height and trendelenburg movements are made by hydraulic, telescopic, 2000 N/m³ power, two column type pumps. Equipped with pneumatic CPR function.
- SAFETY
PLATFORM

Chrome plated foldable metal side rails secure the patient. Plastic bumpers at each corner.
The stretcher platform is covered with anti-bacterial, durability (campac laminate) coating decks. ST 400 Stretcher is X-RAY permeable HPL compact laminate so the bed can be used for radiological processes.
Special design high density polyurethane foam mattress covered with water proof washable PU mattress cover two sides with zipper.
- MOBILITY

ST 400 EMERGENCY STRETCHER, equipped with 125 mm diameter wheels with central brake and directional locking system.
- EQUIPPED WITH

IV pole, corner bumpers, universal brackets for lifting pole and drainage holder.
